

MEMBERSHIP REGISTRATION FORM

DUTCH SOCIETY FOR PRECISION ENGINEERING

DSPE is a community for everyone working in precision engineering. Its ambition is to create an exclusive community for precision engineers in the Netherlands.

What makes membership of DSPE unique:

- The only community in the field of precision engineering in the Netherlands.
- Active since 1954!
- Members receive the free journal Mikroniek (international magazine on precision engineering) six times a year. Every new member gets free editorial publicity in Mikroniek.
- Networking meetings with others in the profession, such as the regular Precision in Business (PIB) day, the Optics & Opto-Mechatronics Day and the two-yearly DSPE Conference on Precision Mechatronics.
- Website www.dspe.nl with background articles on precision engineering and articles from earlier volumes Mikroniek.
- Young Precision Network (YPN), a network where young precision engineers can share their knowledge.
- Certificates for postgraduate precision engineering training programmes.
- Member benefits at fairs, conferences and for training programmes, such as the five-day Opto-Mechatronics Summer School, and LiS Academy Summer School on the manufacturability of metal precision components.
- Education for post-graduate precision engineering training. See www.dspe.nl/education for an overview of courses with the Certified Precision Engineer value quality mark.
- Special Interest Groups Optics & Opto-Mechatronics, Robotics, Manufacturability and Thermo-Mechanics.

Awards for promoting precision engineering:

- **Wim van der Hoek Award**, annual Designers Award for the best graduation project on design in mechanical engineering at the three Universities of Technology in the Netherlands.
- **Rien Koster Award**, two-yearly oeuvre award for a mechatronics engineer/designer for services in the promotion of the mechatronics and precision technology discipline.
- **ir. A. Davidson Award**, two-yearly award for young talent in precision technology.
- **Martin van den Brink Award**, a two-yearly award for a systems architect who is successful in the Dutch high-tech systems industry and promotes our country's leading role in this field.

Membership fees for January through 31 December:

Category A	Companies and institutes with up to 25 employees	€ 400,00 a year*
Category B	Companies and institutes with up to 250 employees	€ 800,00 a year*
Category C	Companies and institutes with > 250 employees	€ 1.300,00 a year*
Category P1	Personal membership, not on behalf of a company	€ 80,00 a year*
Category P2	One-person business	€ 80,00 a year*
Category O	Educational institutes in senior secondary vocational education/higher professional education/higher education at research universities	50% discount on A through C

DUTCH SOCIETY FOR PRECISION ENGINEERING

Company name: _____

First name: _____ Name: _____

Title: _____

Telephone number: _____ Mobile: _____

Address: _____

Postcode: _____ Town/city: _____

E-mail: _____ Website: _____

Order- or reference number, if needed for internal invoicing: _____

Number of employees: _____

Business activity: _____

Please indicate your choice of membership below:

Category A Category B Category C Category P1 Category P2 Category O

If you opt for company membership (categories A, B and C), you can enter several persons to receive Mikroniek for free:

Contact	Title	E-mail address	
1			<input type="checkbox"/> m / <input type="checkbox"/> v
2			<input type="checkbox"/> m / <input type="checkbox"/> v
3			<input type="checkbox"/> m / <input type="checkbox"/> v
4			<input type="checkbox"/> m / <input type="checkbox"/> v
5			<input type="checkbox"/> m / <input type="checkbox"/> v

Date: _____ Signature: _____

The duration of the membership is from 1 January to 31 December. Unsubscribe before the 31st of December.
You can email this registration form to: info@dspe.nl or send it by post to DSPE, High Tech Campus 1, 5656 AE Eindhoven.
Following registration you will receive confirmation and an invoice.
Administration office DSPE, PO Box 265, 5530 AG Bladel, the Netherlands, +31 (0)497 38 64 40
