Welcome to the ACTUATOR Conference

The 18th ACTUATOR-International Conference and the 12th International Exhibition on New Actuator Systems and Applications, will take place in Mannheim, Germany, from June 28–30, 2022.

ACTUATOR is a major biennial event, providing a **platform for leading experts, suppliers and users in the field of new actuators and low-power electromagnetic drives from all over the world.**

The Conference

ACTUATOR's Success Story

Attracting nearly 300 participants from more than 20 countries, the International Conference on New Actuators has quickly become **the most important forum to meet leading international specialists**, share their expertise and start business cooperations in the field of new actuator technologies.

Over the years, a huge variety of excellent ideas and results has been reported. A lot of them have been raised **from vision to mass product**. Among the success stories you will find quite a number of established applications of new actuators, in particular their well-known use in fuel injection, adaptive shock absorbers, nano-positioning, precision engineering like camera lenses and other applications of miniaturized drives. In this way, ACTUATOR has launched the **realization of new product generations** with outstanding compactness and high performance properties which so far have not been achieved in conventional technologies.

Conference Focus

Technological Topics

- Actuators based on ER / MR fluids
- Low-power electromagnetic actuators
- Magnetic shape memory actuators
- Magnetostrictive actuators
- Micro / nano actuators
- Piezoelectric actuators
- Polymer actuators
- Shape memory actuators
- Shape memory polymer actuators
- Emerging actuation principles

Application-oriented Topics

- Active vibration / active noise control
- Actuator control
- Adaptronics
- Aerospace applications
- Automation / micro robotics /robotics
- Automotive applications
- Haptic / tactile applications
- (Bio) Medical applications / medical engineering
- Microfluidic handling devices

Related to Areas such as

- Adaptronics
- Automation / micro robots / robots
- Information technology
- Manufacturing technique / micro assembly
- Medicine / medical engineering / biotechnology
- Motor vehicles / aviation
- Optics / laser
- Precision engineering

The Exhibition – A spotlight for your company

Within the exhibition area, we will have **application oriented presentations on a product level**, besides the in-depth conference program.

This Exhibition Forum provides additional information about the exhibition topics on the product level especially to visitors of the exhibition. Exhibitors and other parties are therefore invited to respond with their contributions and presentations to potential customer demand.

List of exhibitors

In order to provide all visitors with a clear orientation, a list of exhibitors including information about all exhibiting companies will be distributed along with other conference documents.

Registered exhibitors are requested to send a short text (max 500 characters including spaces) about the products and services presented as well as a company logo (vector eps format or as high-resolution TIF) as soon as possible to vde-conferences@vde.com.

Exhibition schedule

Mon June 27, 2022	12:30 – 19:00	Set-up
Tues June 28, 2022	07:00 – 08:00	Set-up
	09:00 – 22:00	Exhibition
Wed June 29, 2022	09:00 – 18:00	Exhibition
Thu June 30, 2022	10:00 – 16:30	Exhibition
	16:30 – 21:00	Dismantling

Please note that the a. m. information may still be updated until the final release of the conference program.

ACTUATOR – Target Group

Leading experts, suppliers and users in the field of new actuators and low-power electromagnetic drives from all over the world.

The invitation to attend ACTUATOR is oriented towards the demands of executives and researchers from industrial companies as well as institutes, colleges and universities interested in the transfer of R&D results into innovative actuator applications and drive technologies.

Communication & Marketing

VDE provides a vast experience in marketing and social media to present your company as a global player and influencer.

Direct marketing

Printed materials, e.g. invitation flyers, program and branding on site

Media partnerships

Access to relevant target groups

Social media

Various social media channels (Xing, Facebook, Instagram, Twitter, Youtube)

Email marketing

Marketing & multi-level newsletter campaigns to more than 9,500 contacts

Your choice as our partner

Premium Sponsor

10.000 €

- 12 m² booth
- 5 free tickets
- Full-page advertising in the conference program
- 3 Give-Aways in the conference bag
- Logo presentation (print and online)
- Company profile on the conference website (approx. 1.000 characters)
- Logo presentation on the main stage
- Interview (Article on the website, social media)
- Exclusive lanyard sponsoring during the event (provided by the sponsoring partner)

Gold Sponsor

5.000 €

- 6 m² booth
- 2 free tickets
- Half-page advertising in the conference program
- 1 Give-Away in the conference bag
- Logo presentation (print and online)
- Company profile on the conference website (approx. 1.000 characters)

Bronze Sponsor

2.500 €

- 1 free ticket
- Logo presentation (print and online)
- Company profile on the conference website (approx. 500 characters)

- Host in the coffee bar
- Webcast
- Conference-App

Platinum Sponsor

8.000 €

- 9 m² booth
- 3 free tickets
- Full-page advertising in the conference program
- 2 Give-Aways in the conference bag
- Logo presentation (print and online)
- Company profile on the conference website (approx. 1.000 characters)
- Testimonial on the website, social media

Silver Sponsor

3.500 €

- 6 m² booth
- 1 free ticket
- Logo presentation (print and online)
- Company profile on the conference website (approx. 1.000 characters)

Organizer

VDE Association for Electrical, Electronic and Information Technologies

Stresemannallee 15
60596 Frankfurt am Main
Germany

Within the VDE organization, five technical societies together with standardization and product testing departments, are responsible for knowledge transfers and the exchange of information regarding technical trends. VDE experts work on the mapping of innovation strategies and foster an on-going dialogue among researchers, developers and users.

The VDE works to ensure that technical innovations benefit people in their daily lives. It is a driving force behind securing the highest standards for engineering studies in the nation's universities. VDE studies and analyses provide engineers, companies, politicians and the public with the technical information needed for shaping policies and making decisions.

GMM – Society of Microelectronics, Microsystems and Precision Engineering

The aim of the interdisciplinary VDE/VDI Society of Microelectronics, Microsystems and Precision Engineering (GMM) is to give impulses in the fields of microelectronics, microsystems and nanotechnology as well as precision engineering and mechatronics in order to join forces in the processing of new fields and to promote the dialogue between manufacturers, users, science and politics.
